Safety & Security

Emergency Preparedness

Early Warning

Security is Everywhere

To enhance public safety and security, Mass Notification and Paging Systems play a crucial role by broadcasting emergency messages, and providing vital audio and visual instructions for medical, safety, security, and weather-related emergencies.

Mass notification systems play an integral job in safeguarding all public and private environments, venues, and businesses today. Deployed in every space where people work, play, or gather, they ensure a proactive approach towards safety and security measures.

1. Education

2. Retail

3. Restaurants

4. Hospitality

5. Healthcare

6. Industrial

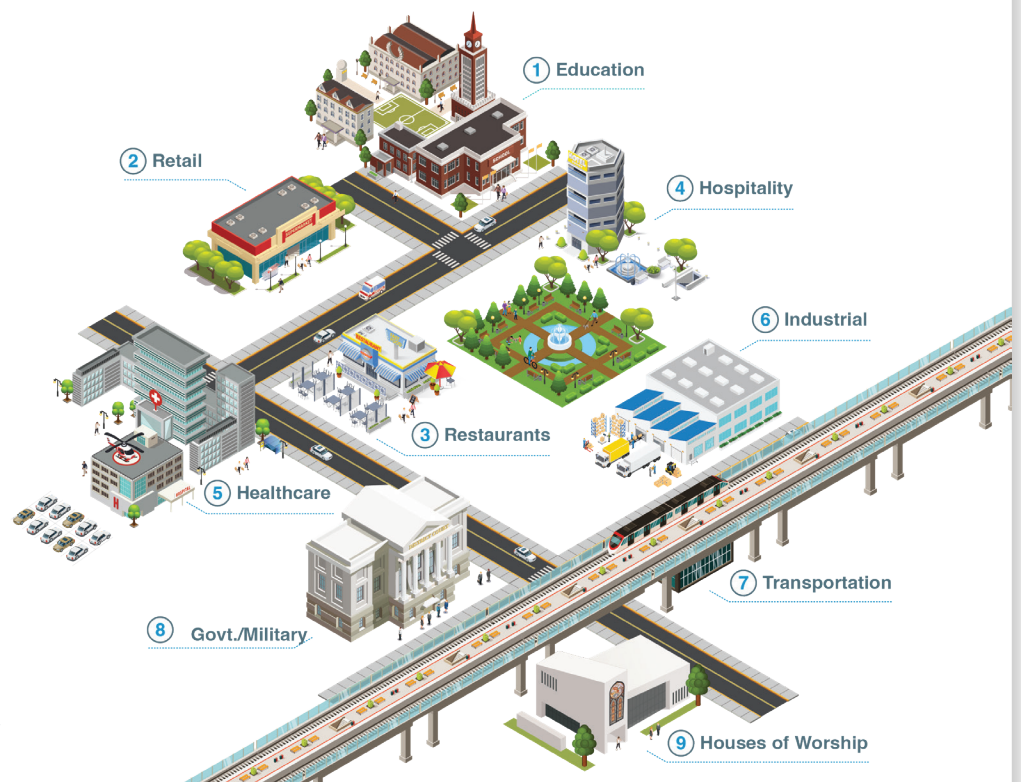

7. Transportation

8. Government / Military

9. Houses of Worship

Features & Additional Capabilities

Emergency Communication Systems

- ✓ Crisis Plan Support
- ✓ Lockdowns (Customized Routines)
- ✓ Emergency messaging with direct connect to the National Weather Service (NWS)
- ✓ Emergency Evacuation
- ✓ Live or pre-recorded messages
- ✓ Automatically locking doors (integration with access control)
- ✓ Trunk out to call 911 and play a specific looped message
- ✓ Ability to call into the intercom system from off-site and monitor an intercom station
- ✓ Text and email first responders or safety personnel
- ✓ Notify other facilities or command centers (or school district offices) of a lockdown
- ✓ Emergency routines can be initiated from a panic button, paging phone, SIP trunked phone, web browser, or from a remote facility

Intercom Systems

- ✓ Check-in functionality standard on digital call switches
- ✓ Emergency / Help Point Intercom
- ✓ Emergency Check-In feature that can be used for lockdowns
- ✓ Call Switch in classroom can call in normal, urgent, or emergency priorities
- ✓ Pop-up of a room's video feed via the Maps view (using standard camera URLs)
- ✓ Silent panic alarms that directly notify law enforcement (Alyssa's Law)

Paging/Public Address

- ✓ Announcements
- ✓ Visual Signage and Strobes
- ✓ Emergency Page with Pre-Programmed Messages
- ✓ Alert Filters to display specific Emergency Alert System (EAS) events
- ✓ Supports sound masking to meet HIPAA requirements
- ✓ Interactive Map-Based Paging and Intercom Calling
- ✓ Text-to-Speech Based Announcements

Routines API for 3rd Party Partner Integrations

- ✓ Gunshot & Weapon Detection
- ✓ Earthquake Early Warning
- ✓ Classroom Sound Reinforcement
- ✓ Multi-Channel Mass Notification
- ✓ Vape Detection & Air Quality Index

Bogen Strategic Partnerships provide additional capabilities to meet emerging market and collaboration needs
