

BOGEN

E7000 SERIES

RELEASE 7.0 NOW AVAILABLE

Bogen E7000 Series

IP-Based Communications System for safer, better managed schools

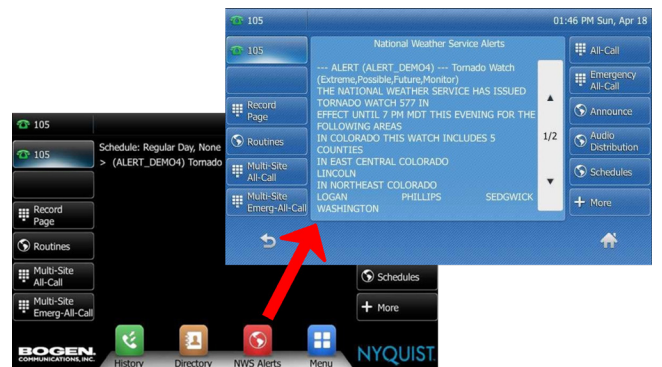

The **E7000 Series** is a software-based state-of-the-art IP-based paging and intercom solution that leverages the latest digital, mobile and software technologies to address today's educational environments, security challenges and mobile lifestyles.

The **Nyquist E7000 ver. 7.0 Software Release** represents a significant enrichment of Bogen's award-winning solution and adds **over 50 new features** and enhancements to an already robust platform with improved capabilities in communication, safety, and security.

This new software release emphasizes ease of use through automation, and enhanced performance through built-in redundancy. Easy system configuration, coupled with an intuitive UI, allows customers to quickly deploy features that are important to their schools' needs.

RELEASE 7.0 HIGHLIGHTS

- **72-Hour Backup Bell Schedule** activated upon Nyquist server failure or Network failure
- **Backup Paging** via the Nyquist T1100 Admin Phones upon Nyquist server failure
- **Intercom Calls** now have the ability to route to PBX-based Admin Extensions via a SIP Trunk
- **Volume Level** changes can now be scheduled via Routines
- **Microsoft Edge** browser is now supported by the Nyquist Web Interface
- **Routine Actions** can now be Conditionally executed based on user-supplied Conditional specification.
- **National Weather Service (NWS)** alerts can now be announced to specified Zones, and the alert text can now be displayed via both the Nyquist Dashboard and NQ-T1100 Admin Phones.

NWS Alerts displayed on the NQ-T1100 Admin Phone
