Self-paced

Available 24/7 Online

Course Assessments

Certified Training

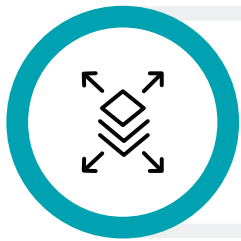

Overview

The Bogen eLearning website provides our customers, dealers, and partners with 24/7 access to product educational content in the form of detailed, guided tutorials.

The eLearning modules provide a wealth of technical knowledge about Bogen products in a dynamic, interactive format and are designed to serve both new and seasoned Technical and Sales Personnel.

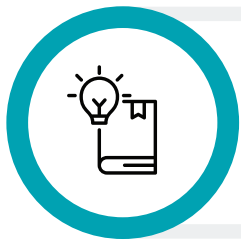

The training modules can be used individually, or as a complement to classroom or on-site training. The flexibility offered by online access means that customers can avoid the huge expense and hassles of coordinating travel for live training. Designed for desktop, mobile phone, and tablet, users can get educated / certified anytime, anywhere.

The Bogen eLearning Advantage

FLEXIBLE SOLUTION
