

# NYQUIST™ E7000

## SOFTWARE LICENSE DESCRIPTIONS

All Nyquist E7000 software licenses are perpetual and do not expire (i.e. no annual license renewal fees). Optional Software Update Subscriptions are available to allow customers to keep their E7000 system up-to-date with the latest features and functionality.

### NQ-E7000SWL

Nyquist E7000 Series Software License

- **One (1) required per E7000 system server**

### NQ-E7000SSL

Nyquist E7000 Series Software - Station License (25 Pack)

- **System Station Licenses are offered/purchased in packs of 25**
- **The following items each require and consume a System Station License:**
  - Each NQ-T1100 Admin VoIP phone
  - Each NQ-T2000 Staff/Classroom VoIP phone
  - Each ZPMS-G2 Zone Paging Microphone Station
  - Each NQ-IPHRN01 VoIP Indoor/Outdoor IP Horn
  - Each NQ-DSC01 VoIP Double-sided Message Display
  - Each active port on an NQ-E7030 Analog Station Bridge (max. 24-ports)
    - Bogen automatically quotes/provisions one SSL License Pack (25 licenses) for each ASB requested in a quote configuration
    - **Note:** Use of analog and/or digital call switches with an ASB port does not affect station licensing
  - Each NQ-S1810CT-G2 and/or NQ-S1810WT-G2 VoIP speaker
    - **Note:** Use of analog and/or digital call switches with a VoIP speaker does not affect station licensing
  - Each NQ-P0100 Matrix Mixer Pre-Amp
  - Each NQ-GA10P/V PoE VoIP Intercom Module
    - **Note:** Use of analog and/or digital call switches with an NQ-GA10P/V does not affect station licensing
  - Each active SIP-ATA-FXS/FXO port implemented via 3rd-party ATA devices (if equipped)
  - Each active port on a 24-port FXS VoIP Gateway integration (Yeastar TA2400) for analog phone support (if equipped)
    - Bogen automatically quotes/provisions one (1) SSL License Pack for each 24-port FXS Gateway integration requested in a quote configuration
  - Each NQ-GA20P2 PoE+ and NQ-GA40P3 PoE++ Integrated Amplifier Modules
  - Each assigned channel on NQ-Axxxx-G2 and NQ-PAxxx amplifiers
  - Each NQ-GA400P AoIP Gateway
    - Can consume up to 2 licenses

### NQ-E7000CCL

Nyquist E7000 Series Software - Concurrent Call License (10 Pack)

- **Concurrent Call Licenses are offered/purchased in packs of 10**
- **The following items each require and consume one or more Concurrent Call Licenses:**
  - All Call (1)
  - Emergency All Call (1)
  - District-Wide All Call (1)
  - District-Wide Emergency All Call (1)
  - Multi-Facility Paging (1)
  - Multi-Facility Announcements (1)

  - Scheduled Events (e.g., Bells, Announcements, Tones; 1 per active event)
  - Audio Distribution (1 per active stream)
  - Call Monitoring / Recording (1 in addition to the 1 for the call itself)
  - DISA Station Monitoring (2)

## NQ-E7000TTS

Nyquist E7000 Series Software - Text-to-Speech License

- Required to enable TTS-based announcements & messaging in an E7000 system

## NQ-E7000SML

Nyquist E7000 Series System Software -  
Sound Masking License

- This is an optional, one-time, system-wide license required to enable the Sound Masking capability within an E7000 system

## NQ-E7000SWLAF

Nyquist E7000 Series Software -  
Automatic Failover License

- Required to enable the Automatic Failover (AF) capability of the Nyquist server in an E7000 system

**Note** The AF feature requires customers to purchase a secondary standby System Controller (or server) on which to install this S/W license. An AF S/W license is not required to be purchased for the Nyquist system's primary server.

# NYQUIST

The E7000 Series is built upon Bogen's award-winning Nyquist software-based IP communications platform, which provides users with unparalleled flexibility and scalability, whatever their application.
