

**BOGEN**

# E7000 SERIES

## RELEASE 11.0 NOW AVAILABLE

### Bogen E7000 Series

#### IP-Based Communications System for safer, better managed schools

The **E7000 Series** is a software-based state-of-the-art IP-based paging and intercom solution that leverages the latest digital, mobile and software technologies to address today's educational environments, security challenges and mobile lifestyles.

The **Nyquist E7000 ver. 11.0 Software Release** represents a significant enrichment of Bogen's award-winning solution and adds **over 50 new features** and enhancements to an already robust platform with improved capabilities in communication, safety, and security.

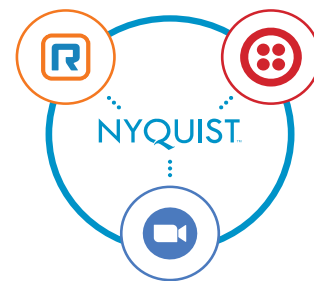

This release enhances system security and integration with a Debian 12 OS upgrade, encrypted audio, and expanded API support. Improved alert handling, flexible time sync options, and customizable emergency audio ensure a smarter, more responsive system.

#### RELEASE 11.0 HIGHLIGHTS

- **Expanded Device & Video Call Support** Now supports the Double-sided Hallway Combo Display (NQ-DSC01), Remote Volume Control (NQ-VCTRL), VoIP Horn (NQ-IPHRN01), and the Zone Paging Mic Station (NQ-ZPMS-G2), including video calling between NQ-ZPMS-G2 phones.
- **Enhanced System Health Monitoring** SMART monitoring improves controller hardware oversight with alerts and system status tools.
- **Broader SIP Platform Compatibility** Seamlessly connect with Ring Central, Twilio, and Zoom through expanded SIP call support.
- **Routines API Enabled by Default** The Routines API license is now automatically activated for faster setup and immediate access standard for third-party communications and triggers.
- **Routines API v2 CAP Messaging Support** Now supports incoming CAP messages for more advanced and responsive automation workflows.
- **Improved Installation & Commissioning Experience** Built-in Nyquist Training Video links make setup and configuration easier than ever.
- **Advanced Call Security Enhancements** Secure SIP (TLS 1.2) and SRTP for PBXi SIP trunks provide stronger encryption and safer communications.

11.0 Software supports new Nyquist IP-Peripherals

Now supports Ring Central, Twilio, and Zoom SIP calls
