

PVMC

Module Security Cover

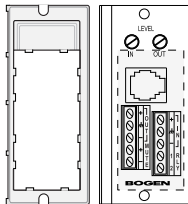

Break-off sections

Caution: The break-off pieces may fly off while twisting. Take reasonable precautions to prevent any flying pieces from causing injury.

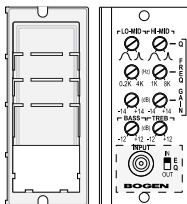

Example 1

All break-offs removed.

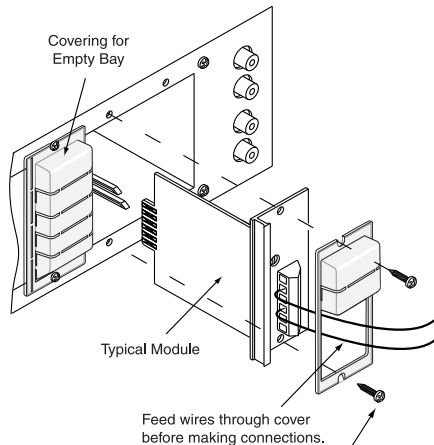

Example 2

One break-off removed.

Break sections off as needed to expose connector.

Covering for Empty Bay

Typical Module

Feed wires through cover before making connections.

Use 12mm screws.

(Actual Size)
