

VHSK V•HUB SECURITY INSTALLATION KIT

COMPLETE STEPS 1 & 2, THEN CHOOSE **OPTION A** OR **OPTION B** TO SECURE THE UNIT TO THE DESIRED LOCATION.

- Remove existing screw from underside of V•Hub unit.
- Using the replacement screw provided with your kit, attach the Security Cable lug.

- After affixing the lug, slide the Security Cable through the opening in the lug.

OPTION A: SECURE THE CABLE CORD AROUND A TABLE LEG.

- Feed the Security Cable through one of the holes in the supplied metal cable bracket.

- Loop cable around table leg, feed cable through other bracket hole, then couple end of cable to Padlock.

OPTION B: SECURE THE CABLE CORD TO THE UNDERSIDE OF A TABLE OR DESK.

- Wipe down Cable Disc AND mounting surface area with supplied Alcohol Pad, and let dry.
- Apply a thin amount of adhesive to disc, as shown.

- Affix Cable Disc to underside of any table or desk.
- Apply pressure for 20-30 seconds. A permanent bond will occur within 24 hours.
