Subject: Nyquist C4000 or E7000 End User License Agreement (EULA)

Affected Products: NQ-SYSCTRL Nyquist System Controller

Dealer Action: System setup EULA acceptance

During a C4000 or E7000 system activation using the NQ-SYSCTRL, the **I Agree** button on the popup EULA window may not illuminate when the Setup Wizard prompts the user to accept the EULA during product key activation. If this occurs, you may need to use the browser's zoom feature to resize the window to something less than 100 percent (for example, 80 percent). This should allow the **I Agree** button to illuminate and function properly.

If you have any questions related to this Service Bulletin, please contact Bogen's Nyquist Technical Support at 1 (800) 999-2809.

Sincerely,

Manny Sierra
